

# Conel Electric Operator

**INTERLOCK™**  
**ASSA ABLOY**

ASSA ABLOY, the global leader  
in door opening solutions.

The Conel operator is a purpose designed electronic window control system providing ventilation for remote windows. The slim design of the operator blends in with the surrounding joinery. Up to four operators can be linked to one conveniently located keypad.

## Features

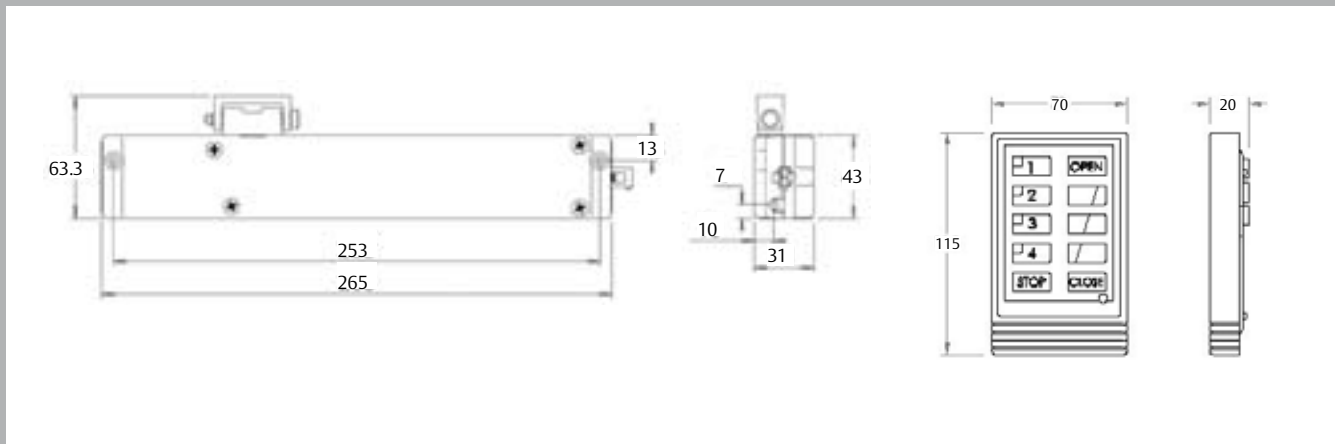

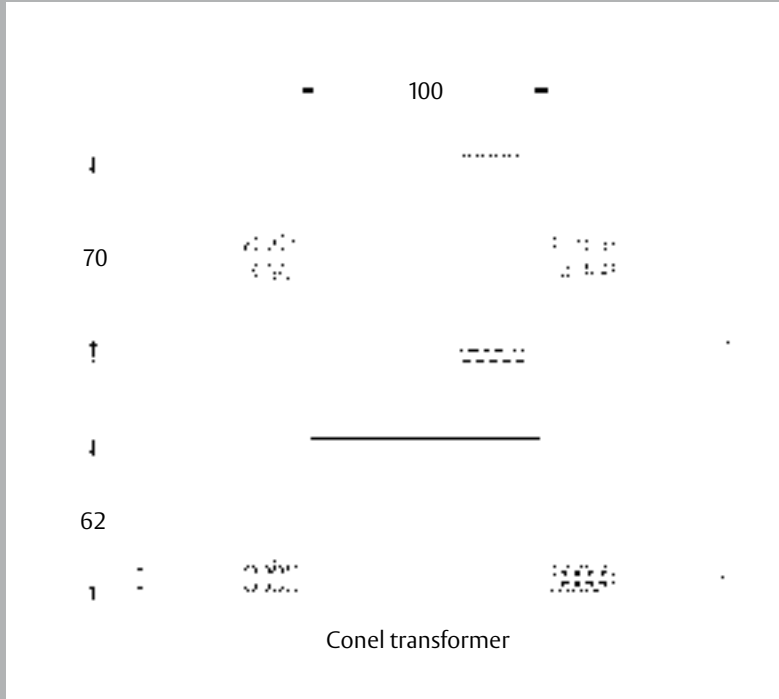

- Slim appearance and colour-matching means that the Conel operator is less obtrusive
- The design is such that the operator could be easily concealed within the joinery itself
- The 24V motor provides smooth operation of hard-to-reach windows
- One operator per window
- New Zealand made

## Options

- **Keypad** – controls up to four operators to preset opening distances with the touch of a finger tip
- The Keypad Operator allows a rain sensor accessory to be added - one per keypad
- **Standalone Operator** – designed to control a single remote window with a simple on/off switch
- Able to be used where there is an electronic control system
- The stroke length of the standalone model can be set to either 150mm or 250mm combined with an electronic control system

# Conel

## Electric Operator

### Recommended Maximum Sash Heights, Widths and Weights

Application	Open angle	Maximum weight (kg)	Minimum Sash Width	Maximum Sash Height	Minimum Sash Height	Maximum Sash Width
Casement	N/A	50	400mm	900mm	N/A	N/A
Awning	Up to 20°	50	N/A	N/A	400mm	900mm
	20° to 30°	40	N/A	N/A	400mm	900mm
	30° to 40°	35	N/A	N/A	400mm	900mm

For Roof Window applications it is recommended that an Interlock Skylight Operator be used

Note: - Conel operators are only to be used on windows with hinges or non-friction stays  
- The standalone and keypad operators cannot be interchanged as the internal components are different
