

Palladium Door Handle Sets

ASSA ABLOY

ASSA ABLOY, the global leader
in door opening solutions.

The Palladium series is offered in six lever styles. The handles have been created specifically for external doors with a long plate design which complements aluminium joinery. By having a range of levers, also available on other escutcheons within ASSA ABLOY's product range, customers can achieve a consistent look throughout the home by matching their internal and external door hardware.

Features

- Can be used with Optimum and Twin Bolt locksets
- New springing detail improves feel and performance
- Non-handed
- Strong zinc die-cast construction
- Fixing details identical to Verona handles, ideal for replacement situations
- New Zealand made

Options

- Locking
- Non-locking
- Fixed (dummy)
- Available in a wide range of powdercoat colours and satin chrome finish
