

Awning Operator

Winder

INTERLOCK™

ASSA ABLOY

The Awning Operator is designed for use with awning window sashes with a minimum sash height of 450mm and a minimum sash width of 600mm. The Awning Operator will control the sash from the closed to fully open position. Where positive seal compression is required, use of a window fastener is recommended.

Features:

- Easy to install with a minimum of routing required
- A smooth quiet nine-turn operator
- The awning operator controls the sash opening by means of a sliding track made available in face fix mounting
- The control handle has a unique pivoting action that allows the handle to be folded flat in a parked position at any sash open angle
- New Zealand made

Options:

- Available in left hand only
- Available in a wide range of powdercoat colours
