

PROJECT: PARK SEVEN (KUALA LUMPUR, MALAYSIA)

Park Seven – Prestigious Condominium located at the heart of the city, 700 metres across the park from KLCC and PETRONAS Twin Towers.

It is designed as “Bungalows in the sky”, with spacious layouts and only one unit per floor. Its design ensures essentials, natural light and ventilation, flowing into the apartment.

Full height ART™ Louvre System (rainbow louvres - natural anodized finished with glass) are used at the private lift lobby area to give maximum natural light and ventilation.
