

Project – Bungalow @ Jalan Pergam

ART™ Louvre System with aluminium blades (powder coated timber grain)

Full height louvres systems are installed in Master Bedroom, Toilets, and as façade of the house (next to staircase area)

↑ *Master Bedroom – Louvres used instead of curtain to block out sunlight and for ventilation when required. Left one panes of louvres can be opened out like swing door.*

→ *Louvres as façade, located next to staircase, are operated by electrical motors*
